

A surreal scene set in a room with dark wood paneling and a fireplace. A woman in a large, voluminous, light pink dress stands with her back to the camera, her head obscured by a large, vibrant bouquet of flowers. To her right, a penguin wearing a white scarf sits on a green armchair. The room is filled with falling dandelion seeds, some of which have landed on the floor. The overall atmosphere is dreamlike and whimsical.

*Fragments  
of a  
Forgotten  
Symphony*

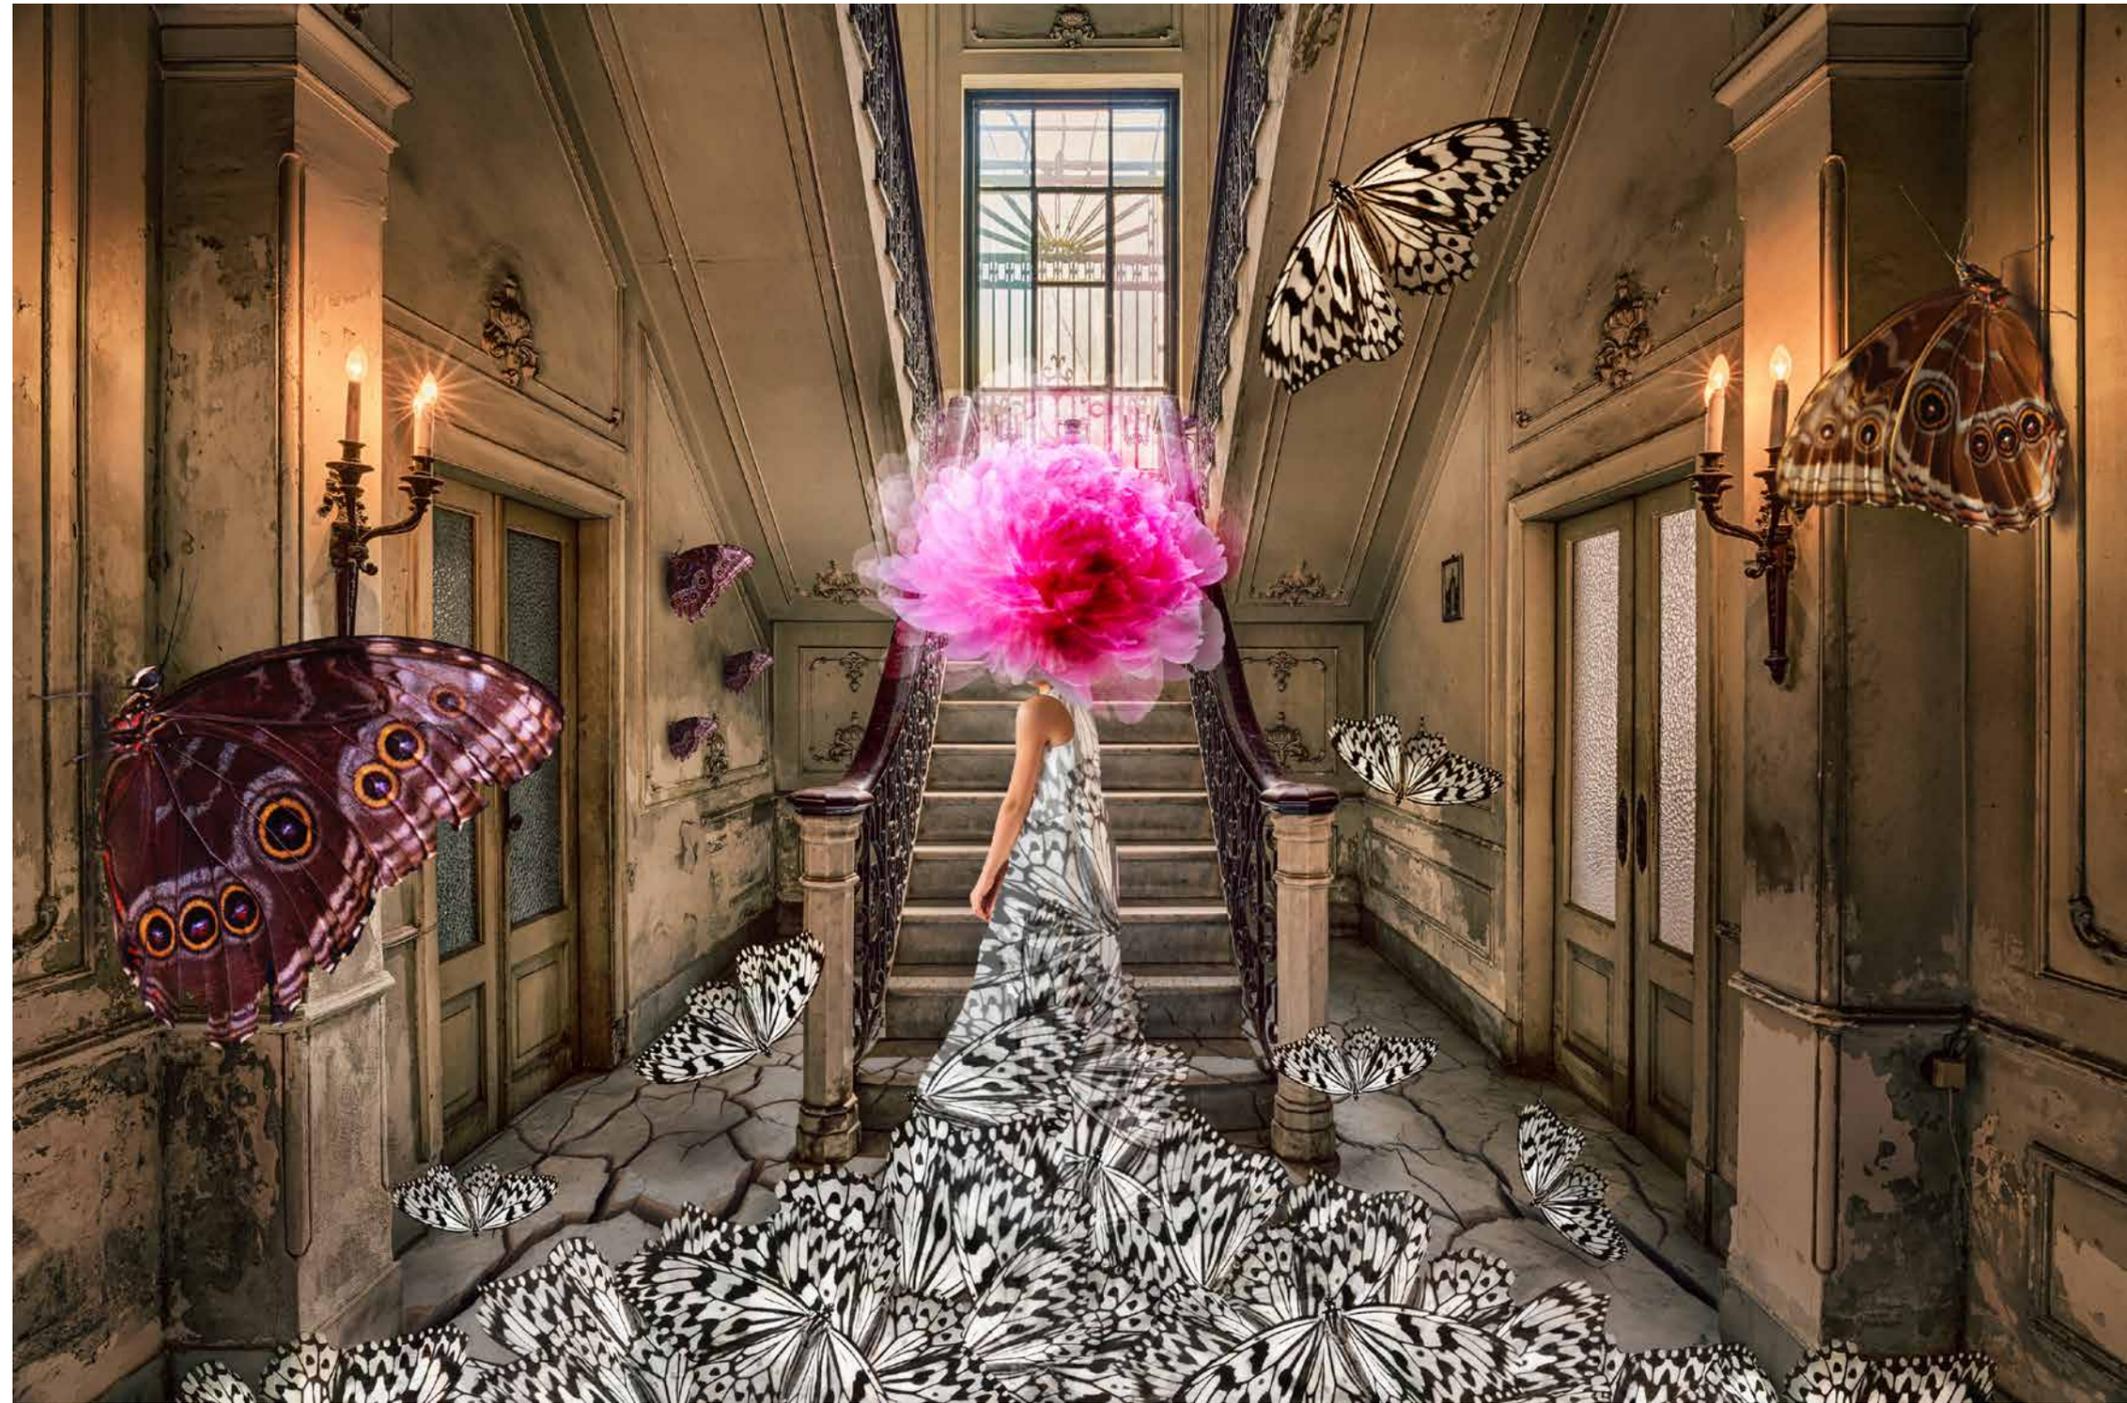

„The moment when the past and the future meet, blend and give rise to the now.

The present moment that transforms the lessons of the past into hope of what is to come.“

A synergy of artistic signatures is the best possible result when two photographers inspire each other in a composite work. This unique 'best case scenario' came true with the photo collages by the artistic duo Michaela Kindle and Daniel Ricardo González.

The passionate photographer and globetrotter Daniel Ricardo González is in a constant search of capturing extraordinary locations. This could be an abandoned, oriental building, a legendary villa in Cuba or a masterpiece of the baroque era, like the dome in Berlin. His special photographs captivate the observer especially through their atmospheric load, which triggers a hidden desire within. González is now among the top photography specialists in Germany. This sophisticated photography technique enables a creative play on altered realities or rather photographic constructions of unique sceneries.

Michaela Kindle puts her emphasis on photographic orchestration. During her years in Los Angeles and London the fine art photographer discovered her passion for 'composing'. Meanwhile residing in Germany, she counts numerous fans and collectors of her impressive art pieces, on both sides of the Atlantic Ocean. With her seemingly surreal themes she is shaping images that settle somewhere in between dreams and fairy tales. Kindle's imaginary agenda withdraws from any boundaries, as the artist abducts us into a poetic wonderland, where childhood dreams are brought back to life. A realm in which even terms like time, space and reality reach the point of absurdity.

With **"Fragments of a Forgotten Symphony"** the artist duo Kindle & González reveals the substance of their collective treasure of images, tickling awake this unforeseen feeling of romance and nostalgia.
